

## Qualified Pathologists' Assistant Opportunity in Tauranga, New Zealand!

Ever dreamed of moving to New Zealand to experience work-life balance with a fantastic lifestyle, exploring the natural scenery on offer, ranging from spectacular rainforests, mountains, and a variety of coastlines with beautiful beaches. Well, now you can!

Whether you enjoy surfing the Pacific, relaxing on the beach, or a bit of retail therapy – come live in the paradise that is the stunning Bay of Plenty, the gateway to the adventure region of the North Island.

### About the company | Mō Tātou

Pathlab is a New Zealand owned and operated, IANZ accredited medical laboratory. We provide cutting edge services to the Bay of Plenty, Waikato, and Lakes regions. Our time proven and reputable systems and processes enable health care for thousands of patients a day.

Our values reflect our commitment to service excellence, treating each other with respect and honesty, staying enthusiastic about continuous improvement, respecting our New Zealand heritage, and acknowledging the Treaty of Waitangi.

We are interested in meeting with Internationally Based Senior Medical Laboratory Scientists or Registered Scientists who are interested in relocating to Tauranga, New Zealand.

### About the role | Ngā kōrero mō te tūranga

An exciting opportunity is now available for a Qualified Pathologists' Assistant or Medical Laboratory Scientist to join our Histology team in the Qualified Pathologists' Assistant - Dissection Specialist role.

You will be working in our cut-up area, using our innovative solutions which include the Cerebro laboratory tracking system. Your duties will include accessioning specimens, preparation (grossing) of large complex specimens as well as routine and urgent histology samples, including stage excisions and biopsies, performing frozen sections, and training of staff (technicians, scientists, and registrars where applicable).

## **About you | He kōrero mōu**

You are a highly educated allied health professional who fulfills a number of lab-related functions under the supervision of registered pathologist. You are trained and can provide accurate and rapid processing of many pathological specimens. Your ability to show initiative and work well with others will see you transition seamlessly into our team.

Our ideal candidate will also have the following:

- 5 years' experience in a histology/medical laboratory with proven large specimen dissection skills.
- BSc Biomedical Science or an appropriate transferable Bachelors degree with knowledge in anatomy and experience in grossing pathology specimens.
- American Association of Pathologist's Assistant PA(ASCP) Qualification.
- IBMS Advanced Specialist Diploma in Specialist Dissection.
- Registered with Medical Laboratory Science Council of NZ and hold a current annual practicing certificate **or** must be eligible for registration with the Medical Sciences Council.

## **What we offer | Ngā āhuetanga kei a mate**

- Immigration support and selected relocation provision are available to successful overseas candidates.
- Competitive salary commensurate with experience and qualifications.
- A supportive and enjoyable work environment.
- Our staff enjoy discounted membership with healthcare providers and support for continuous development.

## **How to Apply | Me pēhea te tuku tono**

To apply for this role please email your cover letter and your CV highlighting how you can meet the skills and experiences detailed above to [careers@pathlab.co.nz](mailto:careers@pathlab.co.nz) .

***The Pathlab group are an equal opportunities employer. All submissions are strictly confidential, and we welcome applications from all qualified persons.***
