HPV Swabs & SurePath LBC Request Forms / Dual Samples

Please note the following in relation to HPV Swabs and SurePath LBC.

Request Forms:

There are multiple forms available to you for both HPV Swabbing and SurePath LBC screening, which are all accepted by Pathlab.

- You have the option of using the eOrder Form (available to you from your local laboratory).
- your PMS form (which will have recently been updated by your PMS Vendor).
- NCSP forms (see link below).

[lab form for hpv-cytology-histology samples - a4 final 1.2.pdf \(nsu.govt.nz\)](#)

[lab form for vaginal swab samples for hpv testing only - a5 final 1.2.pdf \(nsu.govt.nz\)](#)

Please note that all HPV and SurePath LBC samples sent to Pathlab **must** have an accompanying request form.

Collection of Dual Samples (both SurePath LBC and HPV Swab):

If collecting a SurePath LBC sample, we **do not** require an accompanying HPV swab collected.

If both samples are received, we will only be testing the LBC sample for both HPV and Cytology screening, with the Swab being discarded.

Murray Robinson
Lead of Specialty Microbiology & Molecular Diagnostics

CLINICAL UPDATE

Please ensure all members of your institution
receive a copy of this clinical update.
